SUMMARY

Pursuing BTech ECE.

In love with **PYTHON** and **REACT**

PROJECTS

Face-Mask-Detector

- This is an AI based project.
- Detecting whether a person in wearing a face mask or not using Python and camera
- This project uses Image processing, AI (Artificial intelligence), ML (Machine Learning) and ANN (Artificial Neural Networks)
- This works with both recorded video as well as live video feed.
- Here's a [YouTube link](#) of the working project.

Social Distance Detector

- This is an AI based project.
- Detects whether the people in the given video are following minimum distance between each other This project uses Image processing, AI (Artificial intelligence), ML (Machine Learning) and ANN (Artificial Neural Networks)
- This works with both recorded video as well as live video feed.
- Here's a [YouTube link](#) of the working project.

Human-Activity-Recognition

- This is an AI based project.
- Detects what a person is doing in the given video feed or an image.
- This project uses Image processing, AI (Artificial intelligence), ML (Machine Learning) and ANN (Artificial Neural Networks)
- This works with both recorded video as well as live video feed.
- Here's a [YouTube link](#) of the working project.

WATSAPP Clone

- This is a cloned (Looks similar to the original one) version of WhatsApp web.
- This website is build using REACT JS.
- It has backend designed on GOOGLE's FIREBASE, which the most popular and latest DB type
- <https://gowrav-whatsapp.web.app/>

FACEBOOK clone

- This is a cloned (Looks similar to the original one) version of Facebook.
- This website is build using REACT JS.
- It has backend designed on GOOGLE's FIREBASE, which the most popular and latest DB type
- <https://gowrav-facebook.web.app/>

SIGNAL Android and IOS app clone

- This is a cloned(Looks similar to the original one) version of Signal App
- This is an Android and IOS application built using REACT-NATIVE.
- It has backend designed on GOOGLE's FIREBASE, which the most popular and latest DB type
- Here's a [YouTube link](#) of the working Application.

My Personal Resume/Portfolio Site

- This site is my personal Resume Site.
- This is built using REACT JS.
- This site is built just to show my skills on REACT JS and you can see more of my past, present and future projects at [gowrav143.xyz](#)

EDUCATION

Bachelor of Technology, Electronics and Communications Engineering (ECE)

Jul 2018 - May 2022

K L Deemed to be University

GPA: 8.5

Intermediate, MPC

Jun 2016 - Apr 2018

Sri Chaitanya Junior College

GPA: 84.9

ICSE Board, 10th standard

Jul 2015 - Mar 2016

Loyola Public School

GPA: 7.5

SKILLS

Technical Coder:

1: C

2: PYTHON

4: JAVA (basics)

5: LabVIEW (A graphical programming language)

Front-End Developer:**1:** REACT JS**2:** HTML5**3:** CSS**4:** BOOTSTRAP**Android and IOS App Developer:****1:** REACT-NATIVE**2:** EXPO-APP**INTERNSHIP**

- Vi Solution: Based on Iot, AI&ML: Jun 2020 - Jul 2020

MOOC's: COURSERA

- IBM Applied AI
- Modern Robotics: Mechanics, Planning, and Control
- An Introduction to Programming the Internet of Things (IOT)

CERTIFICATIONS HACKER RANK

- C (BASIC)
- C(Intermediate)
- PYTHON (Basic)
- PROBLEM SOLVING(Basic)
- JAVA
